

Built for the family adventure. The 2019 Toyota Highlander.

Take family outings to the next level in the 2019 Toyota Highlander. Its sleek exterior and sophisticated interior are sure to help you create your next favorite memory, comfortably. With a host of premium features like available perforated leather-trimmed seating, an available panoramic moonroof and five standard USB ports⁵ that help keep everyone's mobile devices charged, cries of "Are we there yet?" will become a thing of the past. Plus, everyone will appreciate the available 3.5-liter V6 direct-injection engine and available Direct Shift-8AT (8-speed Automatic Transmission), since they offer the power and efficiency to reach more interesting places. So hop in, and get ready to turn every family outing into an adventure.

"A prime location, a stylish space and a ton of fun things to do. This will be one weekend to remember."

It's time to see and be seen.

Let's make a powerful impression. Whether you're looking to get away or just get around town, you'll find Highlander's sleek design will not go unnoticed. The bold front grille expresses confidence on any road, LED taillights and large alloy wheels add a touch of sophistication, and available puddle lights help light up every entrance in style. Let's live life to the fullest with every trip, no matter where we're headed.

EXQUISITE FRONT END

The sculpted grille is flanked by smart and stylish headlights, which incorporate available integrated LED Daytime Running Lights (DRL). The SE grade has dark-black-accent headlights with LED dark chrome fog lamps, while Highlander Limited and Limited Platinum grades feature smoked-chromeaccent headlight housings.

19-IN. ALLOY WHEELS

The sporty Highlander SE features 19-in. multi-spoke alloy wheels with a black finish. Limited Platinum has an added touch of sophistication with 19-in. 5-spoke Dark Chromtec® alloy wheels.

LED TAILLIGHTS

"Show 'em your taillights" has a whole new meaning. Every 2019 Highlander comes standard with LED taillights that highlight its modern lighting design at every stop.

PUDDLE LIGHTS

This is how you make an entrance. The available puddle lights detect you as you approach Highlander and, on Limited Platinum, project an illuminated "Highlander" logo onto the ground directly below the side mirrors.

Power that's ready to go.

Wherever the day takes you, Highlander has the power to get there. Thanks to an available 3.5-liter V6 direct-injection engine paired with an advanced available Direct Shift-8AT (8-speed Automatic Transmission), the powertrain is built to generate more horsepower and torque while enhancing fuel efficiency. Highlander also offers an available Stop and Start Engine System (S&S),⁴¹ making it even more efficient in traffic. If you want to flex its muscle, know that you're capable to tow⁴⁷ up to 5000 lbs. It's power that connects you to a better all-around ride.

3.5-LITER ENGINE

Talk about an impressive powertrain. Highlander offers an available powertrain featuring a 3.5-liter V6 direct-injection engine and available Direct Shift-8AT (8-speed Automatic Transmission). Not only does this help improve acceleration, it helps maximize mpg while cruising at speed.

STOP AND START ENGINE SYSTEM (S&S)41

Available on gas-powered Highlanders is the available Stop and Start Engine System (S&S). This shuts the engine off when Highlander is at rest — like when at a stoplight — to help save more fuel. When it's time to go, pressing the accelerator restarts the engine so you can get on your way.

AVAILABLE 5000-LB. TOWING CAPACITY⁴⁷

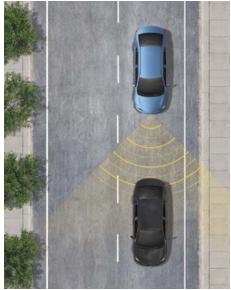

Some adventures are so big you have to tow them. No problem. Thanks to its available 3.5-liter V6 direct-injection engine, a properly equipped Highlander can tow up to 5000 lbs.

Designed for safety.

Toyota Safety Sense™ P (TSS-P)²² is a bundle of active safety features on many new Toyota vehicles at no additional cost. These innovative features were designed to help protect you and your passengers from harm.

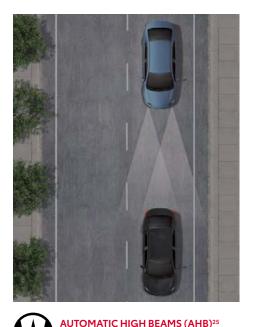

Intended for highway use and similar to "constant speed" cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes are applied. When there's no longer a vehicle driving slower than your set speed in front of you, DRCC will then accelerate to the preset speed.

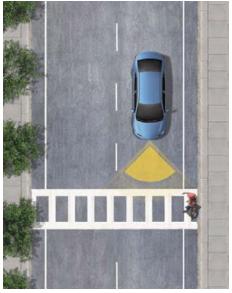

Alert (LDA) is designed to help detect lane departures on roads with visible lane markings. LDA only activates when you're traveling at a speed of 32 mph or faster. When you hear and see the alert, after carefully checking the road around you, you should safely direct your vehicle back to the center of your lane. In addition, if the system senses that you're unintentionally drifting, it may automatically make small corrective steering inputs to help keep your vehicle in its lane.

Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

Using an in-vehicle camera and radar to help detect a vehicle or a pedestrian in front of you, the Pre-Collision System with Pedestrian Detection (PCS w/PD) can help you mitigate or avoid a potential collision. If the system determines that a frontal collision is likely, it prompts you to take action using audio and visual alerts. If you notice the potential collision and apply the brakes, PCS w/PD may apply additional force using Brake Assist (BA)? If you don't brake in time, it may automatically apply the brakes to reduce your speed, helping to minimize the likelihood of a frontal collision or reduce its severity.

See numbered footnotes in Disclosures section.

Peace of mind for the journey ahead.

Let's help make every road trip a safe one. Every Highlander comes standard with the Star Safety System,™ our advanced integration of safety technologies that includes Enhanced Vehicle Stability Control (VSC),²6 Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)²7 and Smart Stop Technology® (SST).²8 With eight standard airbags,³0 plus technologies like available Safety Connect,®³6 it all adds up to a more confident drive.

TOYOTACARE⁴²

Toyota is devoted to safety and dependability, and proper vehicle maintenance is important to both. That's why we include a no cost maintenance plan that covers normal factory scheduled maintenance with the purchase or lease of every new Toyota for 2 years or 25,000 miles, whichever comes first. 24-hour roadside assistance⁴³ is also included for 2 years and unlimited miles.

LATCH

LATCH (Lower Anchors and Tethers for CHildren) provides an added measure of safety for the smaller members of your family. LATCH includes lower anchors and tethers on the outboard second-row seats and a tether anchor on the middle seat of the second and third rows.

8 AIRBAGS³⁰

An Advanced Airbag System helps protect you and your family with driver and front passenger dual stage airbags, driver and front passenger seat-mounted side airbags, a driver knee airbag, a front passenger seat-cushion airbag and Roll-sensing Side Curtain Airbags (RSCA) for all rows.

Comfort that's always a crowd-pleaser.

A big part of enhancing the driving experience is making sure everyone is comfortable. With seating for up to eight, we've made sure to turn up the premium experience for you and your passengers. Available high-end leather-trimmed seating and distinct accents add sophistication to the interior, while five USB ports⁵ give everyone accessibility to their devices. Push a button and an available panoramic moonroof lets everyone enjoy the view. Highlander is designed to be just as versatile, fun and comfortable as you need, because some of the best memories are the ones you don't plan for.

FIVE USB PORTS⁵

Five USB ports make it easy to power up the family road trip. With three USB ports up front, and two USB ports in the rear, everyone can plug in their favorite portable electronic devices.

8-PASSENGER SEATING

Highlander's roomy interior gives you enough space to seat up to eight people and provides more comfort along the way with reclining third-row seats.

SADDLE TAN INTERIOR TRIM

Highlander Limited and Limited Platinum include Saddle Tan interior trim. Featuring high-grade leather-trimmed seating surfaces and touch points, this upgraded interior ensures all occupants ride in total luxury.

PANORAMIC MOONROOF

In-seat freedom for everyone. Your passengers have the whole sky to inspire them, thanks to the available panoramic moonroof.

Here comes life. Are you ready?

There's a lot that goes into each day, and Highlander has thought of everything. A standard backup camera³ and available Bird's Eye View Camera⁴ enhance the way you see, while available Blind Spot Monitor (BSM)² with Rear Cross-Traffic Alert (RCTA)³⁵ help alert you to the things that might be out of sight. You can also change the view for your rear passengers with the available rear-seat Blu-ray Disc™ entertainment system that drops down for easy viewing. Now you're ready to take on any adventure that comes your way.

BIRD'S EYE VIEW CAMERA4 WITH PERIMETER SCAN

Highlander's available Bird's Eye View Camera helps you see nearby objects and get into and out of spaces with ease. The system includes Perimeter Scan — an innovative feature that displays live, rotating 360-degree views of your surroundings when you're parked.

BLIND SPOT MONITOR² WITH REAR CROSS-TRAFFIC ALERT³⁸

The available Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA) help heighten your awareness on the road. They provide audible and visual indicators, alerting you when a vehicle enters a blind spot or if a vehicle approaches while Highlander slowly backs out of a driveway or parking space.

STANDARD BACKUP CAMERA³ WITH PROJECTED PATH

When it comes to safety and convenience, Highlander delivers. Whether you're backing up or parallel parking, the standard backup camera can serve as a guide by showing what the camera detects on the touch-screen display.

REAR-SEAT ENTERTAINMENT

Entertaining from the driver's seat is tough. Let the available rear-seat Blu-ray Disc™ entertainment system help. The 9-in. display screen comes with RCA jacks, a remote and two wireless headphones!⁷

The scenic route never looked so good.

Give every day a chance to reach its potential. Highlander Hybrid generates as much as 306 hybrid system net horsepower, with up to an EPA-estimated 30 mpg city.⁴⁸ Constantly having to search for a fuel pump is a thing of the past, and we didn't have to sacrifice power or performance in the process. It has up to 3500 lbs. of towing⁴⁷ power and is equipped with the capability of Electronic On-Demand AWD system with intelligence (AWD-i). It's time to start expecting more from every drive.

AWD-i BADGING

There's a Highlander Hybrid for every type of family. The 2019 lineup includes a hybrid version of Highlander LE, XLE, Limited and Limited Platinum.

MPG⁴⁸

Optimizing fuel efficiency means making enhancements all over. Highlander Hybrid offers up to an EPA-estimated 30 mpg city and 28 mpg highway. The transmission and efficient engine help to enhance EPA mpg estimates and earn Highlander Hybrid a Super Ultra Low Emission Vehicle (SULEV) rating.45

ECO MODE, EV MODE⁴⁴

In ECO Mode, Highlander Hybrid modifies throttle response to help with fuel economy and can also help when you're slowly accelerating on low-traction surfaces such as snow or ice. EV Mode uses only the electric motor for situations where you're driving at low speeds for short distances, such as in a parking garage.

ΙF

Powertrain

- 2.7-liter 4-Cylinder engine with 185 hp @ 5800 rpm
- 6-speed automatic transmission
- Available 3.5-liter V6 engine with 295 hp @ 6600 rpm
- Available Direct Shift-8AT (8-Speed Electronically Controlled Automatic Transmission)
- · Available Dynamic Torque-Control AWD system

Exterior Features

- Projector-beam halogen smoked-chrome-accent headlights
- LED taillights and stop lights
- 18-in. split 5-spoke machined alloy wheels
- · Windshield wiper de-icer
- Color-keyed heated power outside mirrors with turn signal indicators and folding feature
- Black rocker panels

Interior Features

- Seating for up to eight
- Soft-touch in-dash shelf with easy cable management
- Five total USB ports⁵ three front, two second row
- 24.5-liter soft-touch roll-top center console with removable utility tray
- Second- and third-row 60/40 split, sliding and reclining fold-flat seating
- Integrated backup camera³ with projected path
- Entune[™] Audio includes 6.1-in. touch-screen display with Intelligent Touch controls, Bluetooth^{®8} wireless technology and advanced voice recognition⁷
- 4.2-in. color LCD Multi-Information Display (MID)
- 6-way adjustable driver's seat
- 4-way adjustable front passenger seat

Safety Features

- Toyota Safety Sense™ P (TSS-P)²²
- Star Safety System™
- Eight airbags³⁰

LE Plus

Adds to or replaces features offered on LE

Powertrain

- 3.5-liter V6 engine with 295 hp @ 6600 rpm
- Direct Shift-8AT (8-Speed Electronically Controlled Automatic Transmission)
- Available Dynamic Torque-Control AWD system

Exterior Features

- Integrated fog lights
- Flip-up rear hatch window
- Height-adjustable power liftgate with jam protection
- Blind Spot Monitor (BSM)² with Rear Cross-Traffic Alert (RCTA)³⁸

Interior Features

- Seating for up to eight
- Entune™ Audio Plus includes 8-in. high-resolution touch-screen display with Intelligent Touch controls, Bluetooth®® wireless technology, advanced voice recognition⁷ and is Scout® GPS Link¹¹ compatible
- SofTex®/cloth seats with contrast stitching
- 8-way power-adjustable driver's seat

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

DISCLOSURES

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability of the possibility of placing a special order. 2. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 3. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details. 4. The Bird's-Eve-View Camera does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details. 5. May not be compatible with all mobile phones. MP3/WMA players and like models. 6. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 7. Advanced voice recognition capabilities vary by head unit. 8. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 9. Always drive safely, obey traffic laws and focus on the road while driving. Siri® is available on select iPhone®/iPad® models and requires Internet access. Siri® is not available in all languages or all areas and features vary by area. Some Siri® functionality and commands are not accessible in the vehicle. Data charges may apply. See apple.com and phone carrier for details. Siri® is a registered trademark of Apple Inc. 10. HD Radio™ Technology manufactured under license from iBiguity Digital Corporation U.S. and Foreign Patents. HD Radio and "Arc" logos are proprietary trademarks of iBiguity Digital Corpo. 11. The Scout® GPS Link app is compatible with select vehicle models. Availability and accuracy of the information provided by Scout® GPS Link is subject to change at any time without notice and is dependent upon many factors, including smartphone connectivity, capability and cellular reception. Always use safe driving practices and follow all traffic rules. Data charges may apply. Scout® and Telenav® are registered trademarks of Telenav, Inc. 12. SiriusXM® audio services require a subscription sold separately by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by Sirius XM. Current information and features may not be available in all locations, or on all receivers. ©2018 Sirius XM Radio Inc. Sirius XM and all related marks and logos are trademarks of Sirius XM Radio Inc. 13. Trial length and service availability may vary by model, model year or trim. 14. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner's Manual for details. 15. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See toyota.com/entune for details. 16. JBL® is a registered trademark of Harman International Industries, Incorporated. 17. Headphones are for passenger use only. Do not use while operating vehicle. 18. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner's Manual for additional limitations and details. 19. Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert, and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 20. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 21. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 22. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 23. The TSS Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 24. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. See Owner's Manual for additional limitations and details. 25. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details. 26. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 27. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance. and tire and road conditions. See Owner's Manual for additional limitations and details, 28. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner's Manual for additional limitations and details. 29. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 30. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 31. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 32. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge: do not rely solely on the monitor system. See Owner's Manual for details. 33. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 34. Downhill Assist Control (DAC) is designed to help the driver maintain vehicle control and speed on steep, downhill descents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 35. The engine immobilizer is a state-ofthe-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 36. Toyota Safety Connect® is dependent upon an operative telematics device, a cellular connection and other factors outside of Toyota's control, which can limit the ability to reach the response center or receive emergency support or otherwise limit the functionality or availability of the system. Terms and conditions of subscription service agreement apply. To learn about Toyota's data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts. Stolen vehicle police report required to use Stolen Vehicle Locator. 37. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 38. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the

DISCLOSURES (continued)

function, detection and range of the system. See Owner's Manual for additional limitations and details, 39. Rear parking assist sonar is designed to warn drivers of potential rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for additional limitations and details. 40. Front and rear parking assist sonar is designed to warn drivers of potential front and rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the front and rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for additional limitations and details. 41. Before towing, confirm Stop and Start Engine System is disengaged (V6 gas models only). 42. ToyotaCare plan covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska. 43. Roadside Assistance coverage is 2 years unlimited mileage. Does not include parts and fluids, except emergency fuel delivery. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska. 44. CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in EV Mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving. EV Mode works under certain conditions at low speeds. See Owner's Manual for details. 45. Meets Tier 2/Bin 3 Federal emissions standard. 46. Cargo and load capacity limited by weight and distribution. 47. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Tow hitch sold separately. 48, 2019 EPA-estimated mileage. Actual mileage will vary. 49. Extra-cost color. 50. Roof rack with cross bars is not recommended for luggage. 51. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 52. FWD models require purchase of Genuine Toyota Highlander mudguards at an additional cost. 53. The Toyota Genuine Accessory Warranty will only apply when the installation is performed by a trained Toyotaapproved installer. Please see dealer for details. 54. Use only if aware of circumstances surrounding the vehicle at time of start. Operate only when safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space or is occupied by a child). See Owner's Manual for limitations and details. 55. Available only for vehicles equipped with factory security and factory remote keyless entry system or Smart Key System.

Toyota Highlander is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in you rarea. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable *Warranty and Maintenance Guide* for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.
